

FLANGE DATA SHEET

HYDRAULIC BOLT TENSIONING

DATA SHEET
DS 2

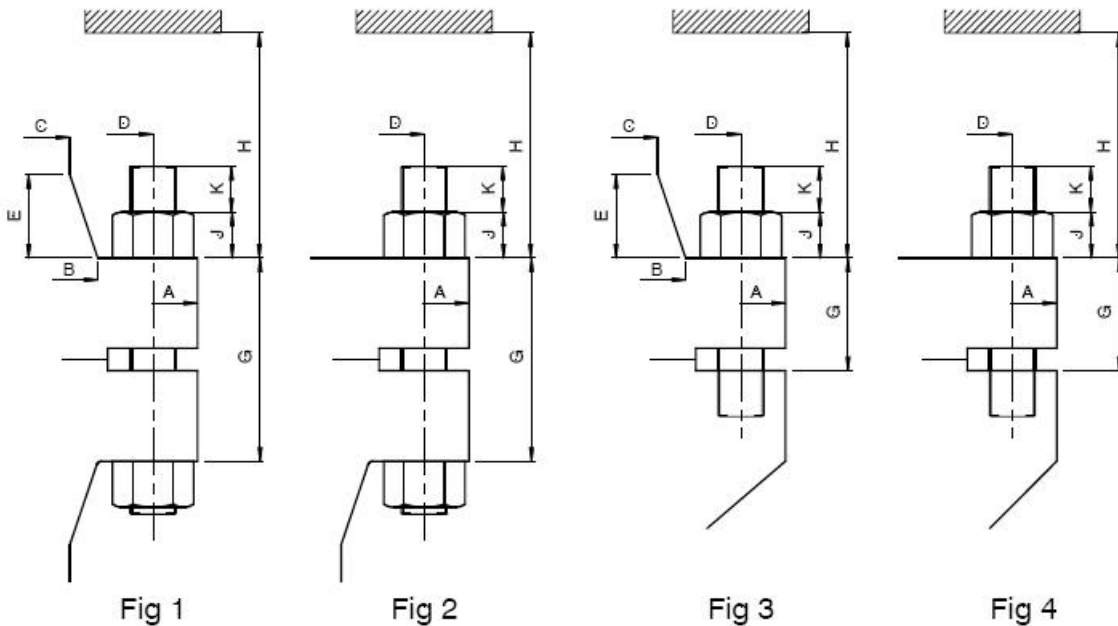

Fig No		
Bolt Diameter and Pitch		
Bolt Material		
Number of Bolts		
Nut Across Flats dimension		mm
Residual Bolt Load Required		kN
Tensioner Force Required (if known)		kN
Dimension A (flange OD)		mm
Dimension B (hub dia)		mm
Dimension C (pipe or vessel OD)		mm
Dimension D (bolt circle dia)		mm
Dimension E (hub length)		mm
Dimension G (bolt grip length)		mm
Dimension H (nearest obstruction)		mm
Dimension J (nut thickness)		mm
Dimension K (bolt protrusion)		mm

If washers are to be used please state the outside diameter and the thickness.
If round or other types of nut are used then please provide a drawing of the nut.
